### Experience

#### Cloud Partners

New York, NY

*Freelance UI Designer*

Jun 2017 - Present

- Solely reimaged the interface of the Talent Optimization Platform, a legacy recruitment application, to a modern UI
- Used Sketch to design two sets of interfaces, which resulted in a simple version for Cloud Partner employees and a more interactive version for clients

#### NYU Courant Institute

New York, NY

*Intro to Web Design Tutor*

Sept 2016 - Dec 2016

- Devoted 10 hours a week teaching students HTML and CSS to create complex websites
- Engaged students in group discussions on UI/UX design and how to implement new concepts

#### Edu.Chat

New York, NY

*UI/UX Designer*

June 2016 - Aug 2016

- Collaborated with iOS, Android, and Web development teams to create complex websites
- Designed 90% of the product's iOS and Android app

### Projects

#### Forefront

New York, NY

*Web Designer and Developer*

October 2017

- Redesigned the website from a multipage framework into a scrollable one that more efficiently presents Forefront's solutions
- Removed unnecessary links in the navigation bar to reduce clutter and improve simplicity

#### Portfolio Website

New York, NY

*Web Designer and Developer*

Dec 2015 - Present

- Used HTML, CSS, and JavaScript to create interactive personal website
- Implemented bootstrap to provide simple navigation, which enhanced the user experience
- Used jQuery, retina.js, and baquettebox.js to enable interaction with photos
